Killing many birds with one stone: Virtual institutional databases in AtoM

Tim Hutchinson
ACA Montreal, 4 June 2016
Background

- SAIN: Saskatchewan Archival Information Network. Launched ca. 2000, hosted by U of S
- Doubled as U of S archival database
- Migrated to ICA-AtoM in 2011
  a) Some local customizations including filtering by institution ("virtual institutional database")
  b) Contributed "visible elements" module
Background cont’d

- AtoM 2.0 release in October 2013
- Goal: upgrade remaining customizations to AtoM 2.x, contribute to main project
- So far:
  a) Enhancement to repository browse (new access points)
  b) RAD and ISAD area headings added to Visible Elements
  c) Tweak to global search/browse
- Final piece: virtual institutional databases
Virtual institutional databases – ICA-AtoM 1.3

Saskatchewan Wheat Pool fonds
This fonds contains comprehensive documentation of the Pool's history and activities, including minutes of meetings, financial reports, materials relating to Pool subsidiary companies, elevator and terminal systems, national and international
Welcome to SAIN Collections

The Saskatchewan Archival Information Network (SAIN) is a database of descriptions of archival material held in Saskatchewan archives. It is a work in progress, with new descriptions being added regularly. For further information about the material described in this database, contact the responsible archives.

SAIN is comprised of two separate databases. The current database is primarily fonds- and series-level descriptions. See also the photograph database.

You can also browse our directory of archives in Saskatchewan, incorporated into the descriptive databases.
